

Start Effective Personnel Training TODAY

Type 1 Tap-Out Stand-Alone Training Device

Advantages

- Assists with the training of new operators and maintenance personnel on a functional tap-out – identical to all StrikoWestofen Equipment with Type 1 Configurations.
- Functional Tap-Out allows for training for critical system adjustments, recommended maintenance, spare part replacement, inspection methods, and equipment best practices.
- Great tool to follow along with StrikoWestofen provided operator manual.
- Same exact design and components as delivered on standard StrikoMelters.

Prepare your staff offline
for actual operations.

Available for rent or purchase.
