Foundry Support Equipment

DynaVac™

The simplest and most original qualitative gas checker on the market.

Flux spray gun

Provides the most effective and economical way to use fluxes to clean furnaces.

Preheating furnace

A portable preheating furnace for riser tubes and fill funnels. It's bigger brother can also be used for goosenecks.

Schnorkle™

The optional Schnorkle™ pneumatic filling device is designed for customers requiring enclosed molten aluminum transport and delivery.

Dynarad® Heating Elements

Designed and manufactured by StrikoWestofen these are original equipment in more than one thousand Dynarad® furnaces worldwide.

We designed heating elements around the furnaces and have been manufacturing them for over 30 years.

We are so confident in our equipment that we offer a two-year warranty on materials and workmanship.

OEM Parts – The Right Equipment for the Job

For peace of mind, insist on genuine StrikoWestofen parts. You've made a wise investment with melting and holding furnace ... now make the same wise decision when choosing your replacement parts.

StrikoWestofen replacement parts are the result of extensive development and tested to rigid engineering standards. This OEM quality ensures the same performance, reliability, and durability for which StrikoWestofen systems are well known.

Riser Tube Return Program

Return your broken riser tubes for a \$150 credit against the purchase of a new riser tube.

Filling Funnel Repair Service

Don't discard the upper filling funnel when the refractory lining is worn through. Return them to StrikoWestofen, and we will install a new refractory lining for you at a considerable saving over a new upper fill funnel.
